

IT Plan for CRSS

I. Department-wide

A. Revamped web page (time frame: 1year)

- “Our window to the world”
 - Faculty, staff and graduate students
 - Seminars, announcements, newsletter
- Information for our clientele
 - Producers, government, funding agencies, etc.
- Help with recruitment of undergraduates
- Help with recruitment of graduate students
- Maintenance
 - Provide the necessary training to faculty and staff to help maintain and update the various parts

B. Department-only section of the web site (time frame: immediate)

- Streamline communication within the state-wide department
- Depository for dossiers, SOPs, forms, etc.
- Access will be controlled via the UGA MyID
 - Differing levels of access depending on rank, tenure and graduate status
 - Access to be managed by Pam Wilson
- Being developed under contract to CITP (Campus Information Technology Partnership)

II. Location-specific

1. Server

- Host departmental and teaching web pages
- Data backup and storage
- Labor needed for server maintenance and management

2. Software and Hardware

- Research & Teaching
- Need to upgrade and maintain
- Need to trouble-shoot

- Needs previously met by ½ -time person who was victim of budget cuts
- Will contract with CITP for 10-15 h/week until June 30
